

DEPUTY COMMANDANT  
**INFORMATION**

*Director, IC4*

*BGen Lorna Mahlock*

*AFCEA Quantico-  
Potomac Luncheon*

*17 June 2021*

**UNCLASSIFIED**

Distribution Statement D: Distribution authorized to Department of Defense and U.S. Contractors only (administrative/operational use/critical technology). . This document constitutes pre-decisional, deliberative opinion and recommendations. Not releasable under FOIA pursuant to 5 U.S.C.552(b)(5). Other requests for this document shall be referred to the Deputy Commandant for Information, 3000 Marine Corps Pentagon, Washington D.C 20351-03000

# PURPOSE AND BLUF

## Purpose

Provide an update on the Network Modernization Plan Iteration one and Iteration two.

## BLUF

The Network Modernization Plan Iteration two was collaboratively built across the FMF and HQMC and is much broader in scope and scale than iteration one. The Plan does the following:

1. Implements strategic guidance and direction (CPG, EABO, etc.)
2. Synchronizes network modernization initiatives; defines & measures network management disciplines, and seeks trade space to pay for modernization

***The scope of change required is a generational undertaking – one that will not be completed during a single commandant's tenure.***

-General Berger, Force Design 2030 Update, April 2021

# THE OPERATIONAL ENVIRONMENT

## Economic & Diplomatic

“The NDS states that we are now in an era of Great Power **Competition**, with our principal challengers being China, than Russia, and that we must move away from low intensity conflict and prepare once again for high-intensity warfare.”

SECDEF Esper, 15 Feb 2020 Munich

## Anti-Access Area Denial

## Naval Power

## Iranian Fast Attack Swarms

# FORCE DESIGN 2030 CAPABILITIES

**Command & Control**

**Communications**

**Littoral Maneuver**

**Fires & Effects**

**Logistics**

**Operations in the Information Environment**

***“We must transform...to meet new desired ends, and do so in full partnership with the Navy.”***  
***– General David H. Berger, 38th Commandant of the Marine Corps***

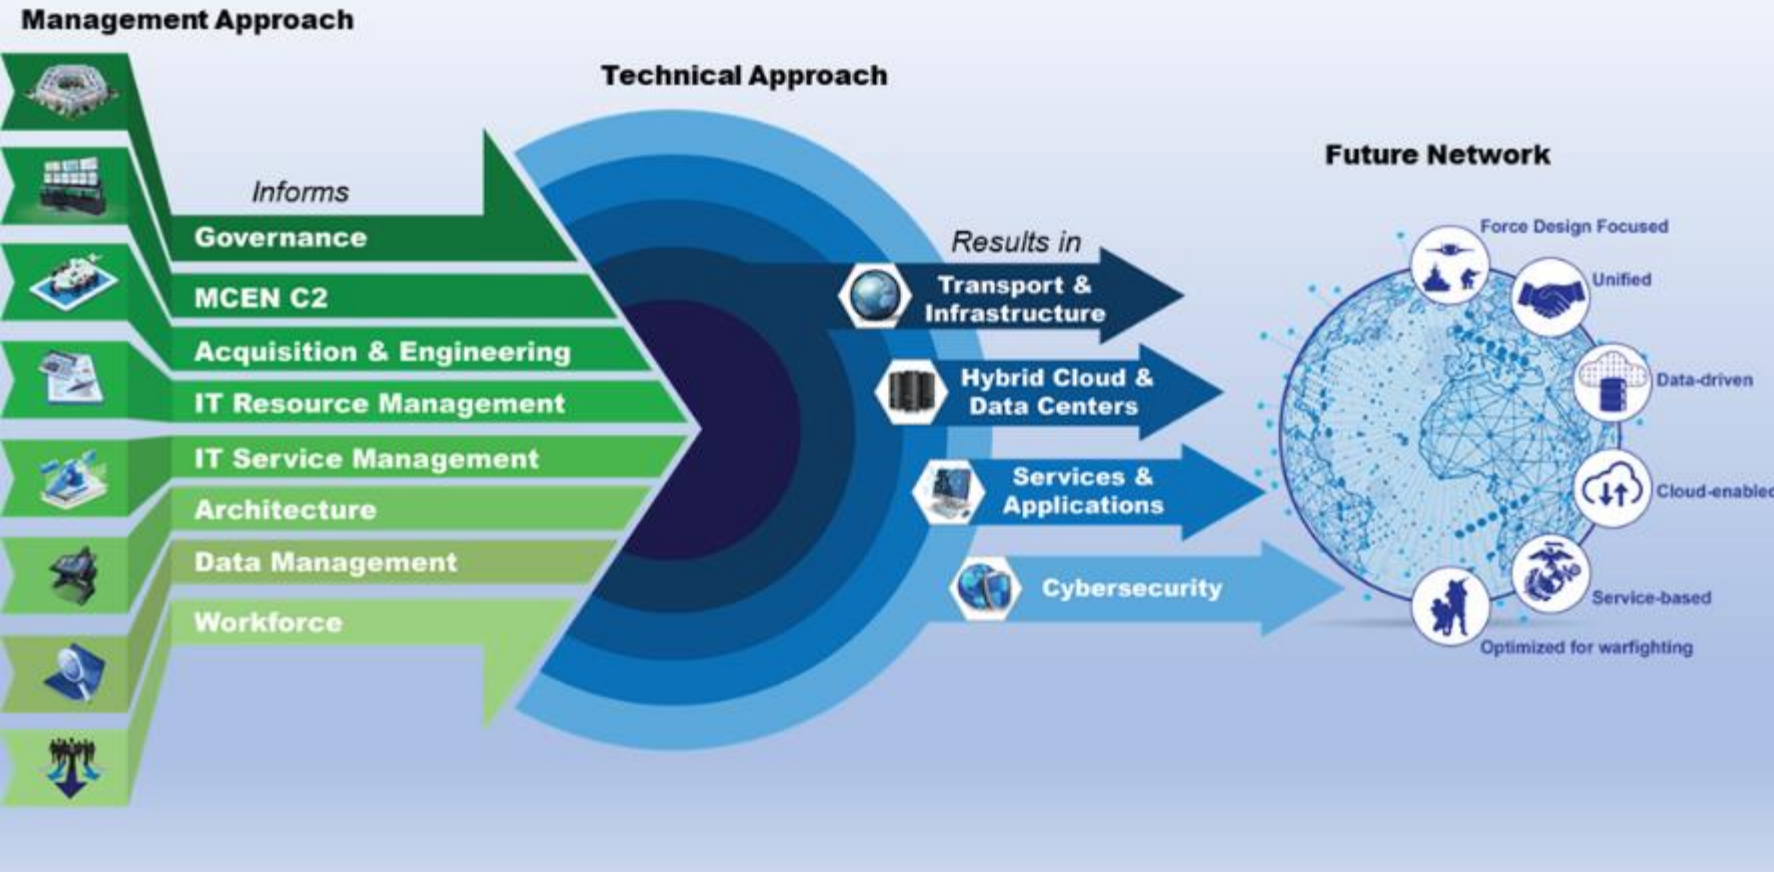

## FOCUS ON NAVAL INTEGRATION

- **Serve as Naval Expeditionary Force in Readiness**
- **Respond to Global Crisis**
- **Prevail in Day-to-Day Competition**
- **Secure Key Maritime Terrain**
- **Contribute to Sea Control**
- **Enable Joint Forces Access**
- **Strengthen Alliances and Partnerships**

*“A return to our historic role in the maritime littoral will also demand greater integration with the Navy and a reaffirmation of that strategic partnership.” CMC Force Design 2030 Report*

# WARFIGHTING NETWORK ENABLING FORCE DESIGN

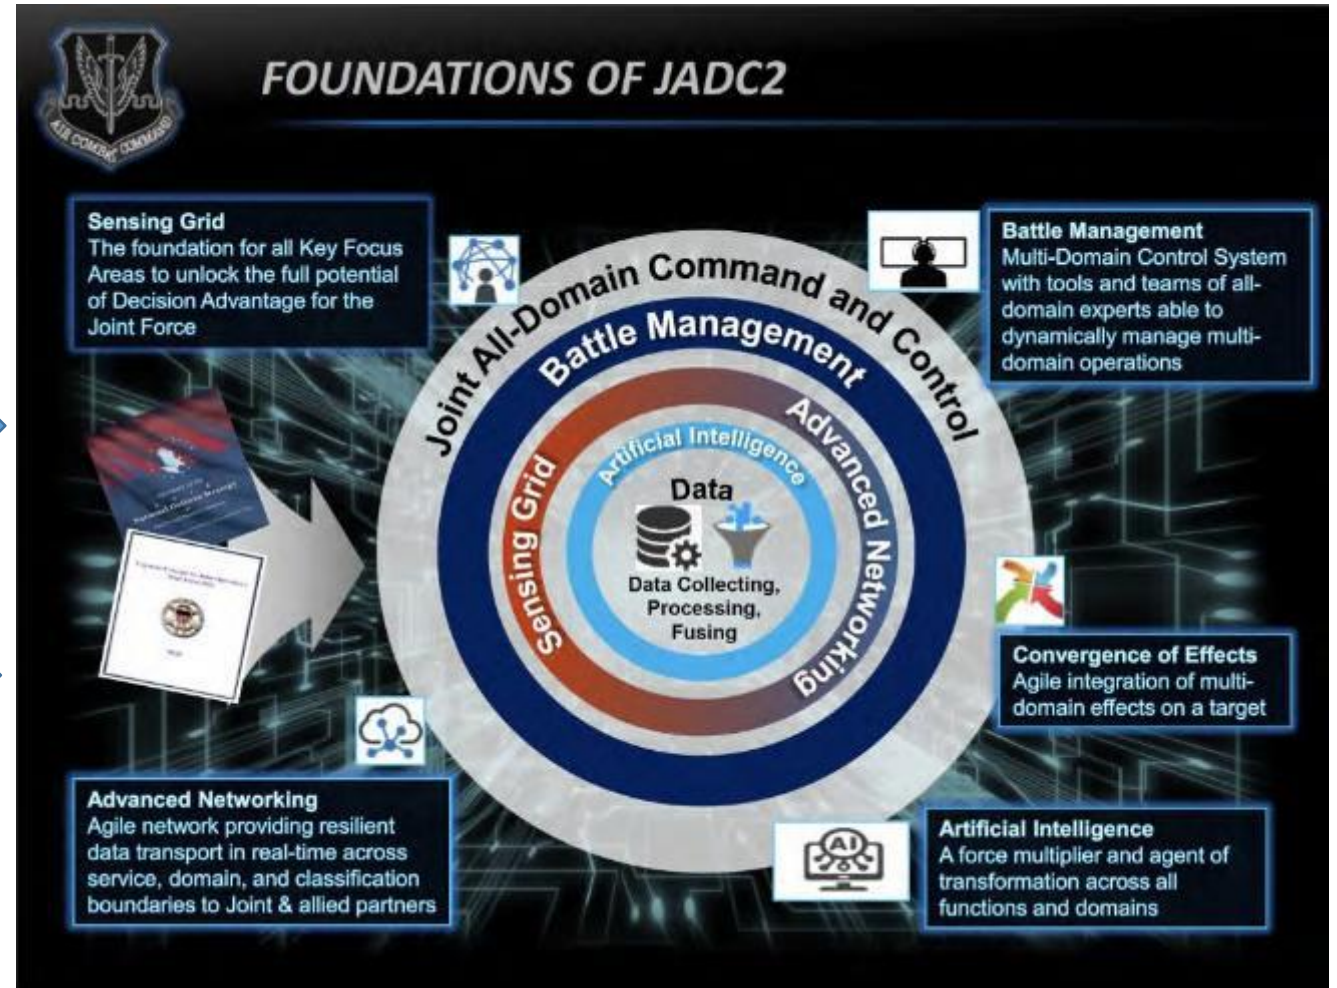

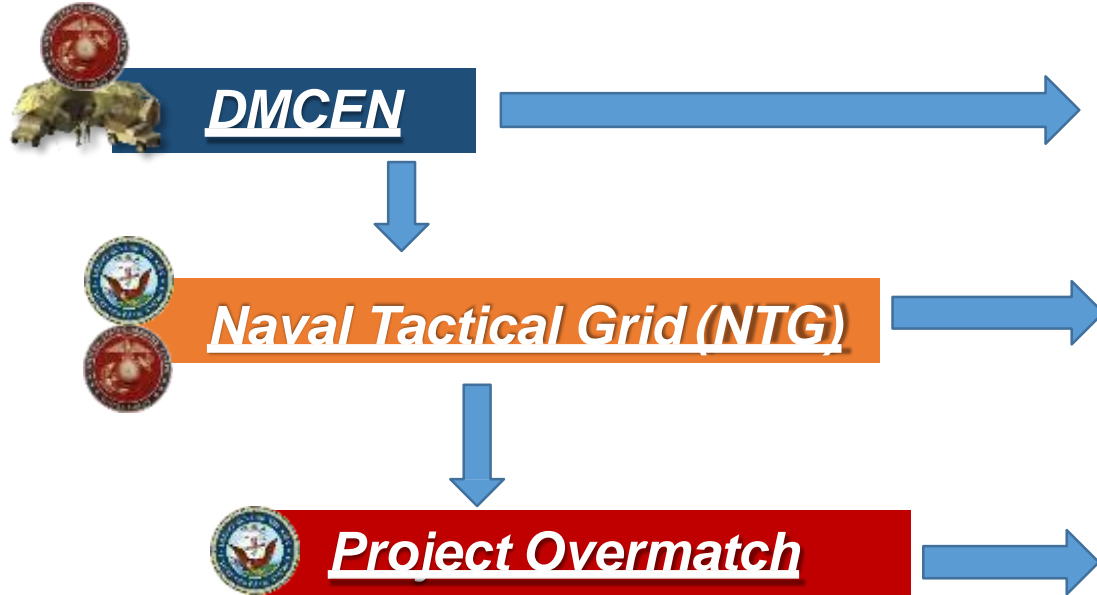

- Threat Informed Capability Development
- Single Global Network from fighting hole to flagpole
- Single Empowered Commander
- Cloud Enabled to Enhance Rapid Tactical Killchains
- More Secure Enterprise Management Area & Support to Other Mission Areas
- Talent Management

***Network Modernization underpins the USMC approach to cybersecurity. We are building a resilient and secure network to support Force Design.***

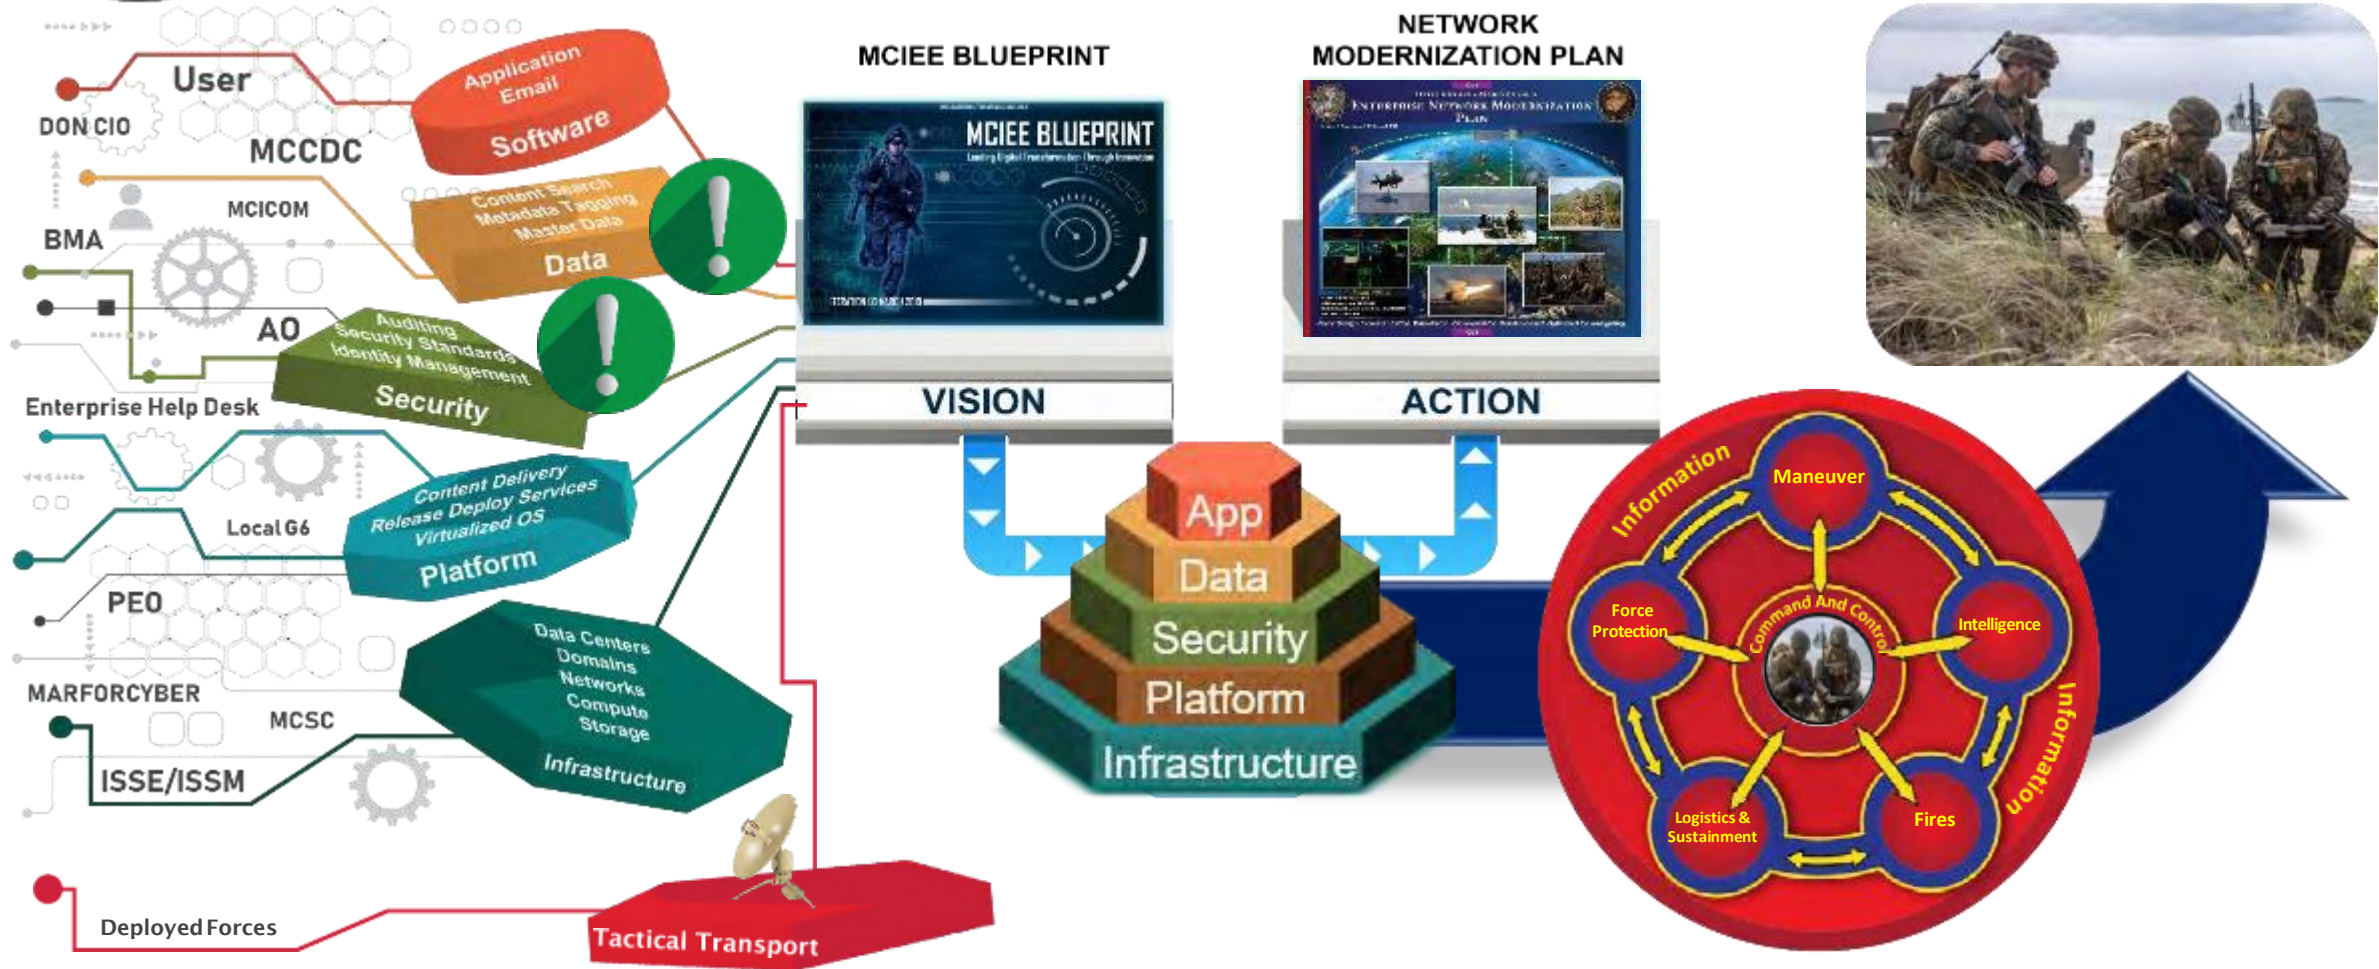

# JADC2

# NETWORK MODERNIZATION – ENTERPRISE AT THE EDGE

*Delivering modern technology and infrastructure from fighting hole to flagpole, with defense in depth starting at the tactical edge – set conditions to maneuver the network rapidly*

# NETWORK MODERNIZATION DRIVERS

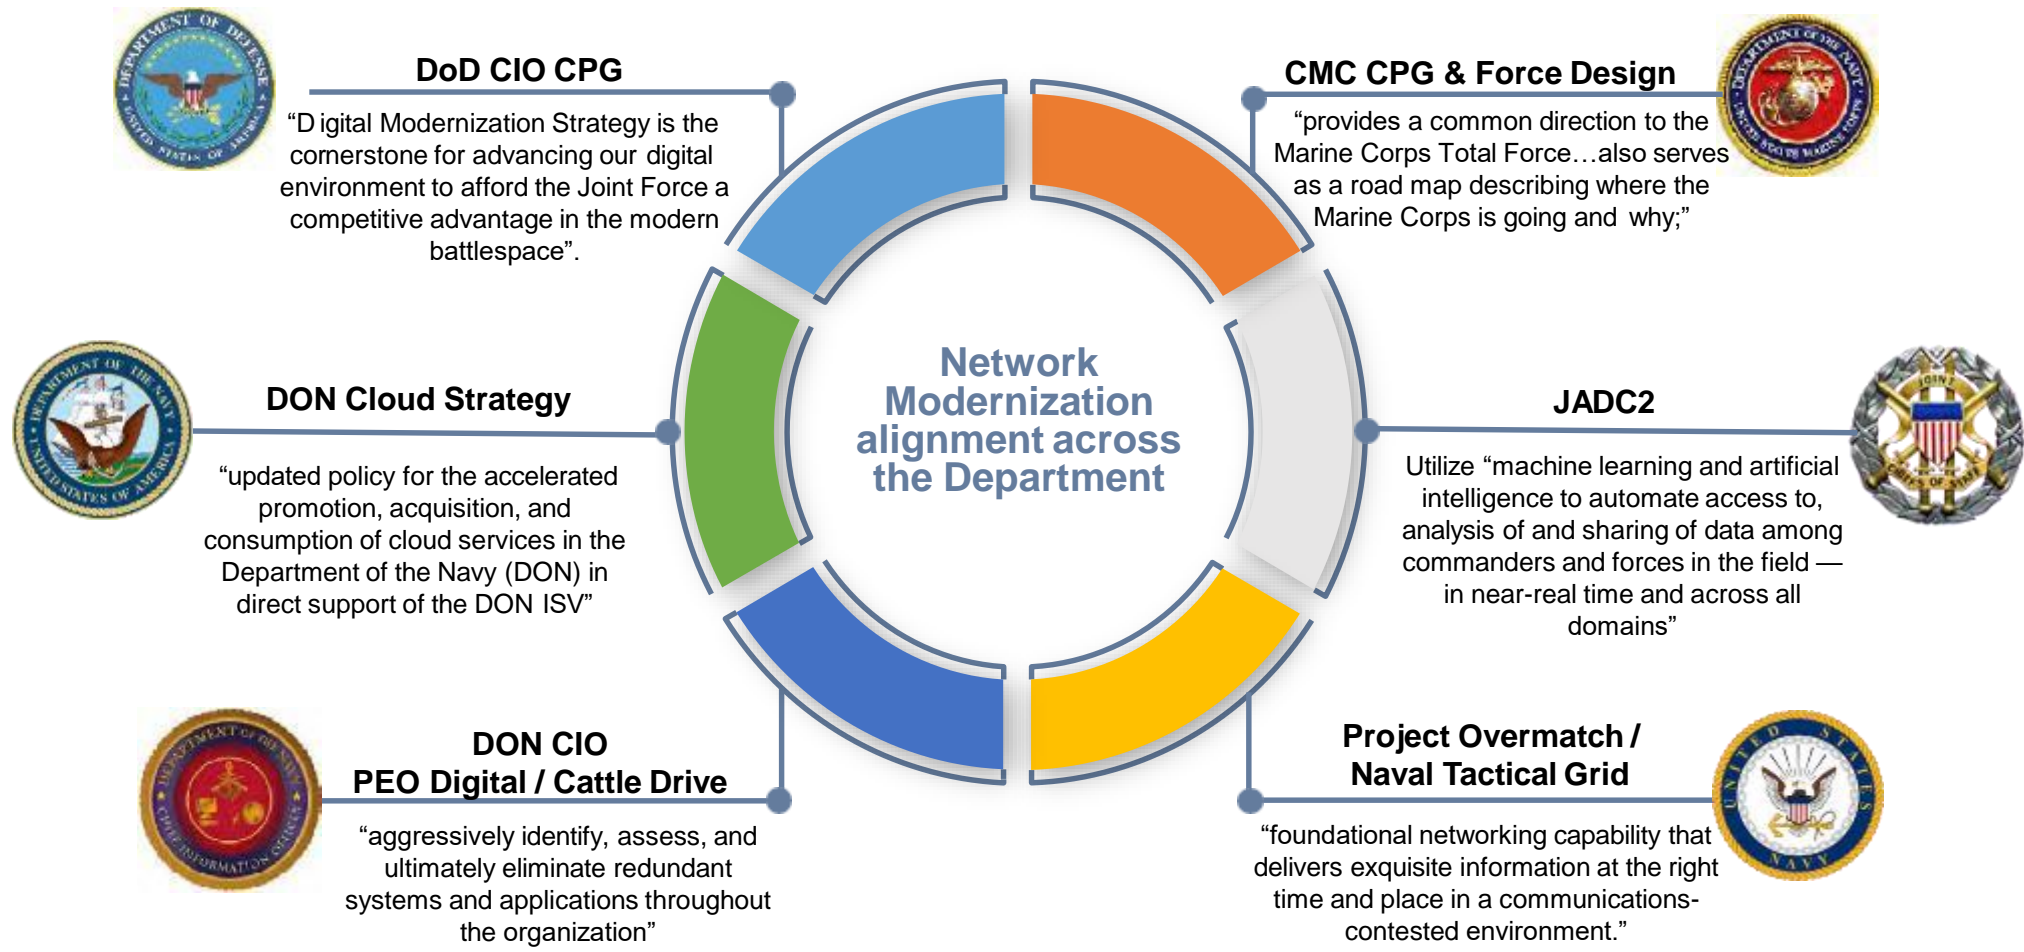

National Security Strategy

National Defense Strategy

DoD Cyber Strategy

**Network Modernization underpins USMC FORCE DESIGN- THE ENEMY GETS A VOTE**

# SCOPE AND APPLICATION

## WHERE ARE WE GOING? HOW CAN INDUSTRY HELP?

- 5G
- Autonomous Systems- Robotics, AI, Machine Learning
- Space
- Risk Management Framework
- Cybersecurity (Network and Weapons Systems)
- Defense Industrial Base
- ISR & Data fusion
- Zero Trust Architecture
- Comply to Connect
- Transport Infrastructure
